Use thin pink thread to embroider the nose.

Embroider it between R23 and 24, just above two stitches that are as centered as possible on the front of the face. You can make about 6 stitches or as many as you want, depending on how many stitches you make, the volume of the nose will be defined. (See video if necessary)

To embroider the eyes use super fine black thread.

Place the eyes approximately 4 stitches from the nose, between R24 and 25.

At this point, place the first pin. Then, between R26 and 27, place two more pins, forming a triangle.

Stitch as many times as necessary until all the white fabric is covered.

To finish, seal the top with a horizontal stitch and then add the two eyelashes. (Refer to the video if necessary.)

Putting on the cap:

Place the hat on Kuromi's head, making sure the tip is as centered on her face as possible and the back of the hat is snug against her neck. To secure it, you can use glue to secure the seam, or sew it on if you prefer a firmer hold.

Ears (x2)

For each ear, make two separate pieces that you will then sew together. Make sure to line them up well before sewing so that they fit together perfectly.

Close with a tapestry needle Use a wool needle to close this piece, forming a ball at the end. Once the ball is well formed, join it to the tip of the previous piece. (See the video for a better understanding).

<https://youtu.be/dnIbegjOhYc?t=2134>

Before you place the ears on your head, make sure to add a little bit of stuffing to each one. Don't use too much; the stuffing should be enough so that when you press them, they hold the desired shape without adding too much weight to the head. Place the ears in the position you prefer. For a better guide on how to do it, check out the video we shared.

<https://youtu.be/dnIbegjOhYc?t=2247>

Make a total of 8 pink circles. Then, crochet the next piece using black yarn, joining the circles together each time you complete a repeat. Although the process seems simple, if you notice that the circles are not in the correct position, please refer to the shared video for a more detailed guide.
