PIERNAS (X2)

Start by using dark blue.

R1: MR 8 sc(8)

R2: 8 inc (16)

R3: 16 reverse sc or BLO (16)

Note: When making the raised single crochet, the piece is very flat, but this is not crucial if you will eventually place a base inside. You can substitute it by working only in the back loop of the previous stitches. [Link to video](#)

R4: 16 sc (16)

At the end of R4, remove the marker, as we will be attaching a flat button to the base. I advise you to glue it so that it doesn't move while we continue crocheting.

R5: 6 sc, 2 dec, 6 sc (14)

Note: Each time we change color, we will do so in the last stitch of the previous round.

R6: With light blue BLO 14 ss (14)

R7: BLO 14 sc (14)

When you finish the first leg, cut the yarn and make an invisible fastener. If this is your first time doing this, I suggest watching the video for a better understanding. When you finish the second leg, do not cut the yarn to continue joining. [Link to video](#)

UNION OF LEGS AND BODY

R8: 4 sc (on the leg where we left off),
1ch, join to the other leg with 14 sc over it,
1 bp in the joining c,
10 sc (on the first leg) (30)

[Link to video](#)

Make sure the R5 decreases always stay in the same direction, as that will be the front of the body.

R9: 30 sc (30)

To achieve a total of 30 sc, you will also need to work into the base of the separation chain. [Link to video](#)

R10: With dark blue BLO 30 ss (30)

R11: BLO 30 sc (30)

R12: With light blue BLO 30 ss (30)

R13: BLO 30 sc (30)

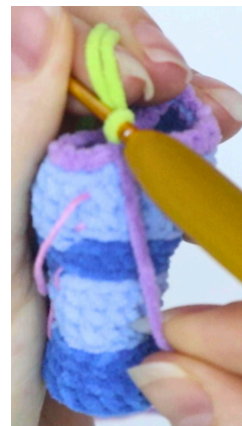

R14: 30 sc (30)

R15: (3 sc, 1 dec) x 6 (24)

R16: With lilac BLO 24 ss (24)

At the end of Round 16, do not cut the lilac yarn. Leave it at the front, as we will use it later to knit a detail. Before that, work the next round using the green yarn.

HEAD

R17: With green BLO 24 sc (24)

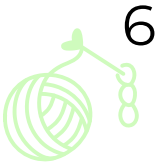

Before continuing, using the lilac yarn, begin by pulling through the first free front loop. Then, starting with the next loop, work 24 single crochet stitches. When finished, cut the yarn, pull through, and make an invisible fastener. [Link to video](#)

Let's prepare the safety eyes carefully. It's important to note that if this amigurumi is for a baby, toddler, or if you're simply unsure who will be handling it, it's advisable to substitute small black felt circles for the safety eyes. Then, glue these circles or the safety eyes to the center of the amigurumi, making sure to place one between rows 1 and 2.

Edge the belt detail using dark blue chenille.

Make five stitches around the blue area of the waist, making sure they are as centered as possible, as shown in the pictures. [Link to video](#)

Attach the arms to each side of the body, right between ribs 14 and 15. Also, make a low stitch to ensure that the arm does not lift up. [Link to video](#)

Attach the ears to each side of the head, between R22 and R23, using glue. Make sure to glue only the base, leaving the tips pointing upwards.

Repeat all the pieces two more times to form two additional bodies.

Cut out the three mouths to position them correctly before placing the eyes.

Attach the mouths and eyes to each body, making sure they are as centered as possible. For a better understanding of how to attach them, you can watch the video. [Link to video](#)

Using a green thread, the same shade as the head, embroider the chain stitch around each mouth for a better finish. [Link to video](#)

Using black thread, lengthen the smile at each end upwards. This is optional and may be difficult to illustrate with images, so please refer to the video for a better understanding. [Link to video](#)
